PROFILE

- Computer engineer student with experience as a Web developer intern at tcs. Interested both in back and front-end technologies, knowledgeable with CSS and html. I believe that I will be a great contribution as an intern at Facebook, as I am very curious about social media design, data collection and the different features Facebook incorporates in one platform.
- I am Technology oriented, Hardworking, reliable and learning different coding techniques to improvise and enhance my passion towards technology and development.
- To secure a position where I can efficiently contribute my skills and abilities to the growth of the organization and build my professional career.
